Mayari Tattoos

Sean Derrick Sandoval's Individual Project for CIS 344

About:

Mayari Tattoos is a fictional tattoo parlor I, Sean Derrick Sandoval, created for my CIS 344 Individual Project. The name and concept are inspired by my Filipino heritage and its mythology. Mayari is a moon goddess, and I wanted to display a mystical aspect for the art pieces that will be permanently etched upon people's bodies.

Purpose:

The purpose of this website is to showcase the parlor's information, artists and allow users to sign up for a newsletter, contact the establishment as well as send in a booking submission form.

Structure:

Folder Name	*Description*

root-folder	Individual-Project-Sean-Derrick-Sandoval is what it's called normally in my own system. Used to hold the entirety of the project's contents.
db-handlers	Holds all the database handlers.
images	Images for pages of the website are held within.
view	Stores all the forms for the entire site as well as the footer and header sections.

Core Concepts:

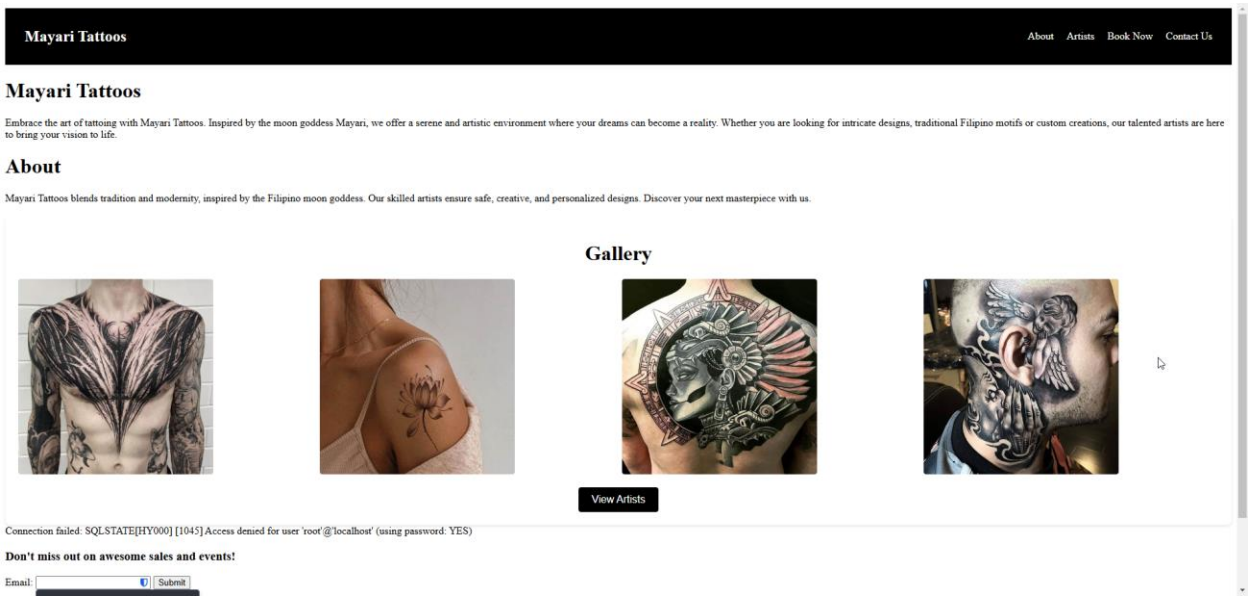
File Name	*Platform*	*Description*	*Deps*
home.php	Php	Displays a brief description of Mayari Tattoos and a gallery of the artists works.	Images Folder and it's example JPGs. artists.php header.php

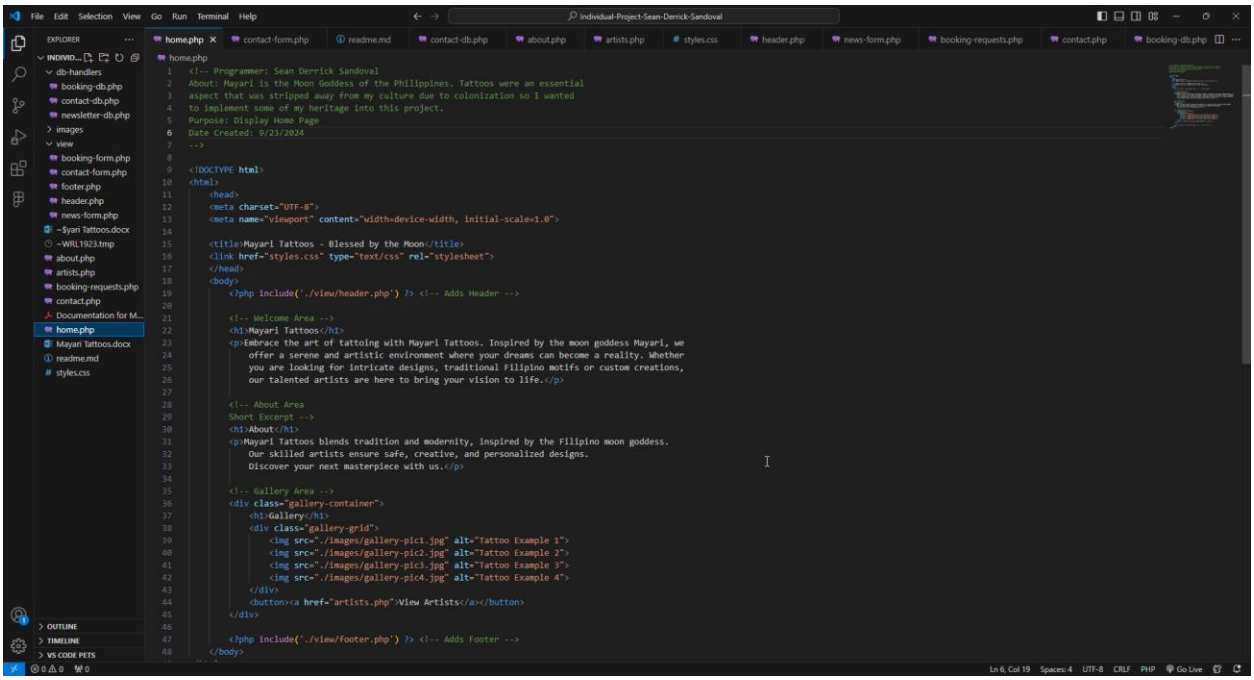
			footer.php
about.php	Php	Overlays a brief description of Mayari Tattoo's history. Also describes how Mayari Tattoos are very community driven.	header.php footer.php
artists.php	Php	Showcases artists' names and faces. Originally it was supposed to also showcase a gallery of work, but it was too much for the scope of the project.	Images Folder and it's PNGs. header.php footer.php
booking-requests.php	Php	Displays the form to book an artist.	booking-form.php booking-db.php header.php footer.php
contact.php	Php	Displays the contact form to reach out to the general people of Mayari Tattoos.	contact-form.php

			contact-db.php header.php footer.php
header.php	Php	Shows the navigation bar for most pages.	
footer.php	Php	Shows contact information and socials. Also displays newsletter form.	news-form.php
booking-form.php	Php	Handles the booking form.	
contact-form.php	Php	Handles contact form.	
news-form.php	Php	Handles the form for the newsletter.	
booking-db.php	Php	Handles the booking requests database.	
contact-db.php	Php	Handles the contact database.	
newsletter-db.php	Php	Handles the newsletter database.	

Screenshots and Explanations:

home.php





Every page includes header.php and footer.php.

Mayari Tattoos About Artists Book Now Contact Us

History

At Mayari Tattoos, we pride ourselves on providing a welcoming and professional atmosphere. Our artists are skilled in a variety of tattoo styles and are dedicated to maintaining the highest standards of hygiene and safety. Come visit us and discover why we Mayari Tattoos the premier destination for your next piece of body art.

We're Not Just Here To Tattoo

We're here to give back!

To us, Mayari Tattoo believes in being a part of the local community and giving back. We do so by hosting blood drives and other community events. We also donate a portion of our profits to charity as well.

We are incredibly thankful to have the opportunity to tattoo in this area and love to create special bonds along the way.

booking-requests.php

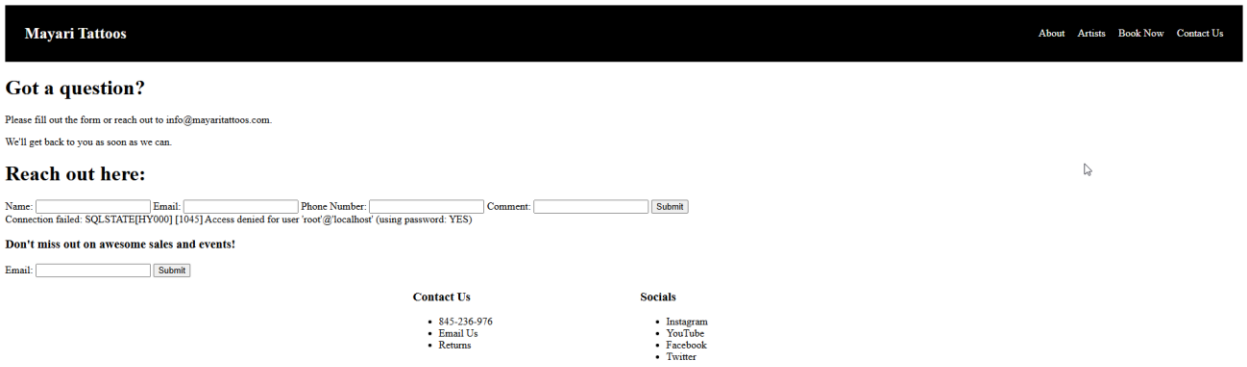
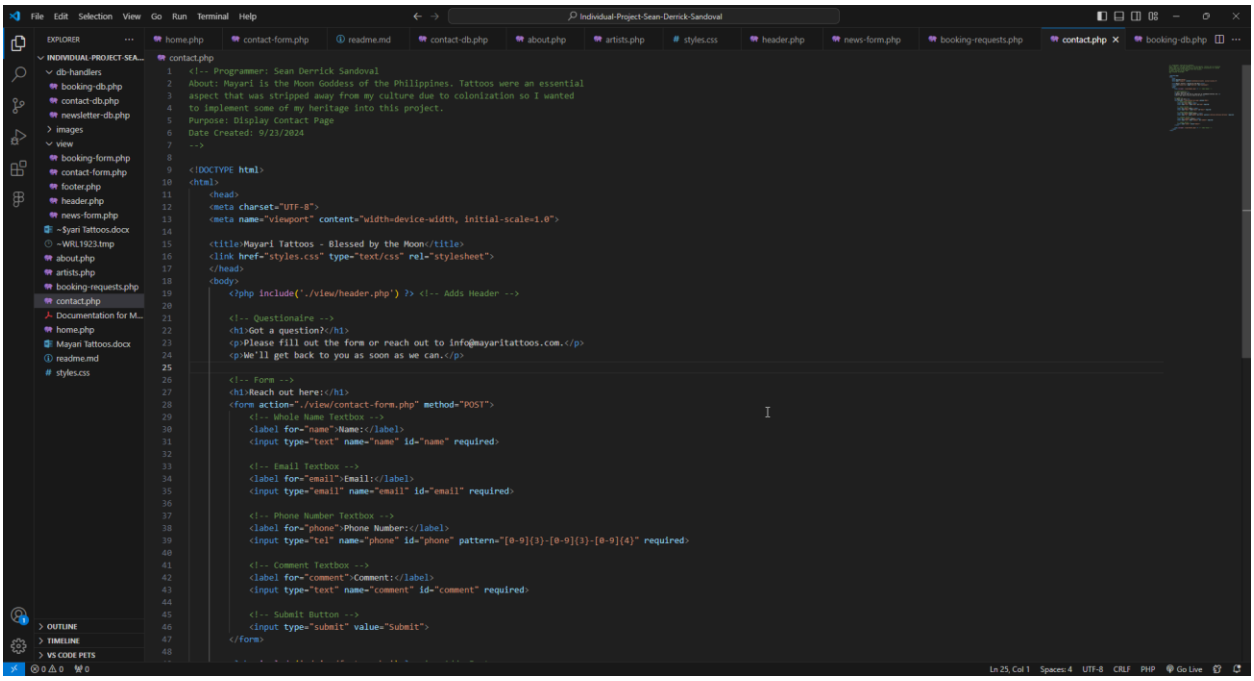
Sends the data to booking-form.php via POST. Has a dropdown menu for artists and tattoo type.

contact.php





Known Issues:

I could not establish the connection with the database, although proper markup of the form and handling was done to the best of my ability.
